"The Mission of the New Mexico Regulation and Licensing Department is to ensure New Mexicans receive quality care and services from qualified professionals".

NMRLD Recommends On-Line Transactions

SANTA FE - As part of the state's efforts to limit public exposure in response to the COVID-19 virus, the New Mexico Regulation and Licensing Department is encouraging licensees to conduct as much business transactions on-line.

The Department urges licensees who want to limit their time in public to take advantage of the on-line services available. As always, licensees can obtain answers to many of their questions about license renewals, or how to register for a license at rld.state.nm.us.

Many transactions, for example, can be done through the Department's on-line portal via internet explorer.

Our priority during this time is to protect public health by limiting the potential impacts of COVID-19 in New Mexico.

The New Mexico Regulation and Licensing Department regulates more than 425,000 individuals and businesses in 35 industries, professions and trades across the state. Its goal is to assure that New Mexicans receive quality services from qualified individuals and businesses while also ensuring fair and prompt administrative process.
